

Overburden Components and Warranty Issuance
March 28, 2016

To: Versico Authorized Contractors

Effective immediately, Early Release Warranties are not available for projects in which Versico Roof Garden Systems, Versico Plaza Pavers*, and/or solar arrays will be installed atop the roofing membrane.

Versico offers a full range of Roof Garden components and Plaza Pavers to meet virtually any roof design. If the building owner wishes to obtain a Versico Total System Warranty, all Roof Garden components and Plaza Pavers installed must be supplied by Versico.

Upon completion of the membrane system, prior to overburden installation, please contact a Versico Inspection Coordinator to schedule a jobsite visit. After the overburden components have been installed and the Job Completion has been submitted, a final inspection will be scheduled for warranty issuance.

Inspection Coordinator	Region	Phone Number
Carol Darhower carol.darhower@carlisleccm.com	Atlantic East Northeast	(800)992-7663 Ext. 7023
Jodi Riley jodi.riley@carlisleccm.com	Mid-Atlantic North Central	(800)992-7663 Ext. 7335
Lauren Turby lauren.turby@carlisleccm.com	Southeast Southwest Northwest	(800)992-7663 Ext. 7334

If you have any questions, or for more information, please contact your local Versico independent sales representative or distributor.

Sincerely,

Misty Fritz
Manager - Warranty Administration, Technical Systems and Services

* Plaza Pavers that are loose-laid in ballasted systems will not be held to these inspection requirements.
