

**New Hercules® and SpeedTite® Roof Drains  
November 14, 2017**

**To: Versico Roofing Systems' Authorized Contractors**

Versico Roofing Systems is pleased to announce the addition of the Hercules Retrofit Drain and the SpeedTite Roof Drain to its product offering. Both drains are compatible with all Versico roof membranes and feature a mechanical seal and a CCM branded strainer.

The Hercules Retrofit Drain consists of a one-piece spun aluminum body with a heavy-duty cast aluminum clamping ring and strainer for long-term durability. The Hercules Drain is easy to install and is available in 3", 4", 5", and 6" sizes.

The SpeedTite Roof Drain is made from durable aluminum components, features built-in vortex breaker technology that improves performance, and can be installed in minutes without special tools. The SpeedTite drain is available in 3" and 4" sizes.
