

**Versico Roof Garden Program Updates
November 30, 2017**

To: Versico Roofing Systems' Authorized Contractors

Please be advised of the following changes and updates to Versico Roofing Systems' Roof Garden product line and marketing literature:

Going forward, to obtain a Versico Total System Warranty, all Roof Garden components must be quoted, marketed, and supplied by Versico. This will streamline the sales process and reduce complexity.

As a reminder, Versico now offers a full range of Roof Garden components to meet virtually any design. The following is a list of approved Roof Garden systems supplied by Versico:

- Vegetal ID's HydroPack pre-grown tray system
- Columbia Green Technologies' traditional and pre-grown tray systems
- Versico Roof Garden traditional system

In addition, the following marketing materials have been recently updated:

- [Versico Roof Garden Systems brochure](#)
- [HydroPack Pre-grown Tray System brochure](#)

Please note: Effective January 1, 2018, LiveRoof Modular Roof Gardens will no longer be eligible or recommended for inclusion with Versico single-source warranties.

Versico is proud to offer industry-leading single-source Roof Garden solutions at the most competitive values. If you should have any questions regarding the information in this marketing announcement, please do not hesitate to call me.

Regards,

Alex Drescher
Roof Garden Product Manager
