

**DASH® Winter Grade (IC) Discontinued
December 13, 2017**

To: Versico Roofing Systems' Authorized Contractors

Versico's DASH Winter Grade (IC) Bag-in-a-Box and Dual Cartridge Adhesive will be discontinued once current inventory is depleted.

Going forward, Flexible DASH Adhesive must be used in situations that previously required winter grade products. Because Flexible DASH adhesive can be applied in ambient temperatures of 25°F to 125°F (-4°C to 52°C), winter grade products are no longer necessary. When applying urethane adhesives in temperatures below 70°F (21°C), Versico recommends storing containers in a heated area to ensure proper performance and yield.

The following Flexible DASH Adhesive products are now available:

Product Code	Product Description	Packaging Information	Stock Status	Weight/Package
328043	Flexible DASH Dual Tank (Part A)	Tank	C, G, S, T	59 lbs
328044	Flexible DASH Dual Tank (Part B)	Tank	C, G, S, T	57 lbs
329526	Flexible DASH 5-Gallon Jug (Part A)	5-Gal Jug	C, G, S, T	51 lbs
329527	Flexible DASH 5-Gallon Jug (Part B)	5-Gal Jug	C, G, S, T	47 lbs
326735	Flexible DASH Dual Cartridge	4/Carton	C, G, S, T	20 lbs

If you have any questions, or for more information, please contact your independent sales representative.
