

Air and Vapor Barrier Field Guide
February 2, 2018

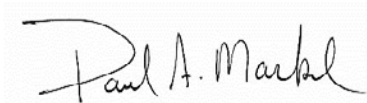

To: Versico Roofing Systems' Authorized Contractors

Versico Roofing Systems is pleased to introduce its new Air and Vapor Barrier Field Guide. This industry-leading guide will provide the most comprehensive collection of air and vapor barrier installation information on the market. The guide will include the following:

- Application procedures
- Installation details
- Product descriptions
- Air and vapor barrier accessory product information
- Air and vapor barrier best practices
- 8 most common air and vapor barrier installation errors

Printed copies of Versico's Air and Vapor Barrier Field Guide are now available to order through Versico's online literature and sample order form. Please contact your independent sales representative for more information.

Sincerely,

Paul Markel
Manager, Special Applications
