

Special-Color TPO Program
February 12, 2019

To: Versico Roofing Systems' Authorized Contractors

As the leader in TPO product innovation, Versico Roofing Systems is pleased to introduce the industry's most comprehensive special-color TPO program. Because requests for TPO products in colors other than white, gray, and tan have steadily increased in recent years, Versico will begin offering TPO membranes and accessories in the most frequently requested colors: medium bronze, patina green, rock brown, terra cotta, and slate gray.

Things to Know – Versico Special-Color TPO Program

- No minimum-order quantities!
- Five special colors are available: medium bronze, patina green, rock brown, terra cotta, and slate gray
- The following items are available in the five special colors:
 - 60-mil standard reinforced TPO membrane – 5' x 100' and 10' x 100' rolls
 - 10' x 100' rolls – limited quantities will be stocked in MS; large orders may require a one- to two-week lead time
 - 5' x 100' rolls – require a short lead time; customers must order an even number of rolls
 - 24" Non-Reinforced TPO Flashing – limited quantities will be stocked in MS; large orders may require a one- to two-week lead time
 - TPO Rib Profile – limited quantities will be stocked in MS; large orders may require a one- to two-week lead time
 - TPO Coated Metal – made to order; requires a one- to two-week lead time
 - 115-mil 12' x 100' VersiFleece® TPO – manufactured at the beginning of each calendar quarter (April, July, October, January) to fulfill all orders that are in-hand as of the 15th of the previous month (March 15, June 15, September 15, December 15)
