

VERSICO ROOFING SYSTEMS

Recycling Program

Saving Money and the Environment Through Recycling

When it's time to replace a ballasted or mechanically-fastened roof, Versico offers a recycling program that allows you to be environmentally conscious and potentially save money in disposal costs. During one 12-month period, rooftop recycling diverted over five million pounds of old roofing materials from landfills and saved tens of thousands of dollars in waste removal costs.

Why Recycle Your Roof?

- Earns credits toward LEED® certifications
- Positions your company as an environmental steward
- Diverts material from landfill
- Reduces carbon footprint
- More government entities are requiring that old rooftop materials be recycled

• The Versico Recycling Advantage

- Container delivery, removal and transportation included
- Coast-to-coast service
- Recycle any ballasted or mechanically-fastened membrane (EPDM, TPO, PVC) or insulation
- Convenient and simple

Versico is partnering with Nationwide Foam, Inc., the country's largest full-service roofing material recycler.

For a quote, please call Nationwide Foam at 888.820.2760.
